**Now you can hire global
CEO, CFO & Head
of Sales on Demand &
they stay with you...**

NETSUITE

NetSuite's [SuiteCloud Platform](#) allows Business users to easily personalize their NetSuite experience through simple point-and-click navigation. This allows users to configure their NetSuite experience based on Business Roles such as CEO, COO, CFO or Head of Sales & Procurements so that they have all the information they need for that role in order to carry out their tasks more effectively or solve one off problems. NetSuite is the main provider of tools, reports and key performance indicators (KPIs) for unlocking your data, and also allowing you to diagnose issues on the fly and move down to transactional details, employee, and customer to quickly act and drive business performance with informed decisions—all without needing programming or technical skills.

NetSuite does this by delivering personalized insights by deploying role-based [customizable dashboards](#) tailored to each business user's need, providing a real-time view into company performance across finance, sales, marketing, inventory, service and fulfillment. Users have option to personalize the dashboard by selecting content from the repository, then simply dragging and dropping the measures that are important to your role for optimized layout. Users have the opportunity to create reports easily by adding new fields, grouping levels and custom formulas with NetSuite's powerful report builder. NetSuite's saved search functionality enables easy access to information such as top-selling products, the number of support cases in your queue, or customers who have overdue invoices. You can export results to a variety of formats, like PDF, Excel or CSV. All of these are easily available on any device, anytime, anywhere. [CSA Consultants Pvt Ltd](#) is the leading service provider to world #1 cloud ERP – NetSuite and brings best value to your business.
